Projected Swiss Visit Likely To Be Abandoned.

(Copyright, 1912, by the Brentwood Company.) Emperor William's projected visit to switzerland in September to witness the annual manœuvres of the militia army of the Helvetian republic is likely to be shandoned for the same reason that Emperor Nicholas some years ago gave up at the last moment his state visit to Rome, for which the most elaborate arrangements had been made by the Italian government. If the Russian ruler renained away from the Eternal City on that occasion, it was because the chief of the Roman police and the principal ofsciais of the detective service of the Stallan Department of the Interior declared it impossible to accept responsibilly for the imperial visitor's safety from any and every sort of harm.

So it is now in the case of Switzerland. there the late Marc Ruchet, the chief of the Department of the Interior, at the beginning of this month resigned his ofice as well as his membership in the rederal Council sooner than accept any esponsibility for the security of the Kaiser on his proposed visit. Mare Ruchet, who died quite suddenly a few days ago, and whose membership in the rederal Council gave him a position equal almost with that of the President of the republic (now M. Forrer), the sovereignty of which is vested jointly in the nembers of the Council, declared that while laws exist for the supervision or exclusion from Switzerland of aliens of stormy antecedents and evil repute the means are lacking for their enforcement. He might have added that there was also a disinclination on the part of the can total governments to co-operate with the federal authorities in the matter. Moreover, he laid stress upon the fact that all sttempts to secure the necessary funds for such an undertaking had failed, as not in keeping with Swiss ideas.

It is this inability to enforce the laws elating to foreigners that has made Switzerland more than any other country the haven of revolutionists, nihilists and parchist: in a word, of the foes of soow and of the existing systems of govemment. In England, which shares with switzerland the international opprobrium of harboring dangerous people, they are it least subjected to a most elaborate and relentless supervision on the part of police. This alone makes them prefer the territory of the republic, where, morever, the means of existence are much cheaper than in England, while the absace of capital punishment from the legal code of most of the cantons, where urder is usually considered as sufidently punished by a more or less long gison sentence, renders a sojourn in that spublic particularly risky for monarchs. No one can forget that it was in Switz gland that Empress Elizabeth of Austria was assassinated in 1898 by an Italian marchist, and, alas! it is a fact that many of the regicidal outrages in other contries have been plotted in Switzer and by "undesirable aliens," notably the blowing up of the dining room of the Winter Palace at St. Petersburg as the imperial party was about to cross the threshold, the assassination of Alexander I a year later, and the wreck of th imperial train at Borki when Alexander III., with his consort and children, in duding the present Czar, so narrowly es sped a hideous death.

As the Swiss resent the presence in r country of foreign detectives and Milce agents, even though employed exdusively to watch alien suspects and diminals, and place all sorts of obstacles h their way, it is probable that the Kelser will yield to the requests of his Minister of the Interior at Berne, abanden his widely heralded visit.

on it may not be amiss to recall that shortly after the memorable tist of Prince Henry to this country M a confidential communication was ismed from the State Department to the whical countries, directing them quietly b discourage as much as possible the filts of European royalties to the United States on the ground that the federal evernment found it difficult to assure their safety from harm and indignity, and that such visits entailed heavy ex imditure, legislative provision for which was difficult to secure without opposition akulated to humiliate both the guest ind the nation.

It is not, however, the question of whey as much as that of safety which and the issue of this communication. for although Prince Henry of Prussla's my was so brieft there was a constant onflict of authority between the federal Stret Service men and the police officials If the states and cities which he visited. b great was the confusion that the Mince's various protectors on several ocusions arrested one another.

He has made frequent visits to this country in con-Lection with his interests in great Westem land enterprises. He makes his princhal home at the Chateau Laucin, in Bohemia, is a Privy Councillor of the Emperor, as well as a member of the House of Lords, and is married to Printess Marie Hohenlohe. I place him thus definately because his second son, married to a Princess de Ligne, bears the same lame, and the two are sometimes confused. Just how the prince came to lend any arge sum to a man so hopelessly involved h debt as Dom Miguel of Braganza is a crious story. Prince Alexander had setured from the Emperor of Russia a gold alning concession in the Altai-Nerchinsk datrict of the crown domain in Siberia. on the strength of which a company was formed in London, under English laws, handkerchiefs at the men in line. otitled "The Imperial Domains Com-Pany," and capitalized at some \$6,000,000. The shareholders included the Archduke copold Salvator of Austria, son-in-law of the late Don Carlos; Prince Elle of Bourbon, son and heir of the last sov treign Duke of Parma, Lord Knollys, and lord Farquhar, Count Hermersburg (who *Ill be remembered as having spent some lime in this country as Prince Hugo Hohenlohe), and a number of other no-Millies, among them the widowed Grand buchess of Luxemburg and her sister. the widowed Archduchess Maria Theresa of Austria, stepmother of the Austro-Hungarian heir apparent. Both these loyal ladles, as daughters of the late ex-King Miguel of Portugal, are aunts of Young Miguel of Braganza, and when the appealed to them once more for monetary assistance on the eve of his marriage to Miss Anita Stewart they lointed out to him how much they had already contributed to his assistance, and

But when she realized that he had been compelled to sacrifice his royal status in order to wed her daughter she declined to contribute more than \$100,000 toward the liquidation of his liabilities. Some \$50,000 of this he paid the Bohemian bank on account. Prince Alexander of Thurn-and-Taxis was called upon to make good his guarantee. Hard hit by the failure of the Siberian gold mining venture, which moreover had put him in the bad graces of his royal and imperial fellow shareholders, Prince Alexander secured Austrian judgments against Dom Miguel for the \$50,000 in question. pleading that he had been intentionally

His application has been without avail, since the police have been advised to take no part in the matter until the question of fraud has been settled by the civil courts. MARQUISE DE FONTENOY.

SUFFRAGE EDITOR MISSING Miss Geraldine Wingate Disappears from Asbury Park.

Asbury Park, N. Miss Wingate's one of those leading the party who they board bill for the entire time of her stay at the hotel remains unpaid, and her effects are still in the house.

Miss Wingate made herself widely ac quainted among the visitors in the beach section through her activities in behalf of woman suffrage. She talked to gatherings in the different hotels and made collections for the cause. She had also arranged to give an entertainment and suffrage lecture in Library Hall on Monday evening next-had tickets printed and was selling them.

On Sunday morning, when it appeared she was preparing to go, the proprietor of the house asked for a settlement. Miss Wingate explained that she was going to New York to get the money to pay her bill. The proprietor thought she could ettle in Asbury Park, and Miss Wingate was taken before Justice Borden, who permitted her to go on her promise to return Tuesday morning to pay her bill. She did not return, and has not since.

A young woman stenographer, who says Miss Wingate owes her money for typing the manuscript of a play, appeared at the hotel to-day and told a tory of two weeks' strenuous work gone for naught.

She had on her new white dress and her pink hair ribbon and her very biggest smile. If anybody had taken the trouble to put her identity to the test, however, he'd have discovered his mistake at once. If, for instance, some inquisitive body had held out a piece of the mineral which has made Phœbe famous and asked: "Is it anthracite or biuminous?" the young lady would have just sniffed and said:

When the will was offered for probate in Owego Mrs. Charles H. Arnot, of Elmira, a sister of Mr. Hewitt, instituted proceedings to have the instrument set aside on the ground that the testator had been subjected to undue influences, and it was later asserted at the hearing that he was not mentally competent to legally dispose of his property. Mrs. Arnot, however, withdrew her contest before a decision had been reached in the Surrogate's Court, it being agreed that she was to receive all her brother's real and personal property in Owego in addition to \$900,000 in cash. Under the terms of the settlement Mr. Hewitt's collection of paintings and art curios, bequeathed to the Metropolitan Museum of Art, became the property of Mrs. Arnot.

In the Hewitt collection are paintings by Vibert, Corot, Jacques, Ziem, Jules Worms, Schreyer and Berne-Bellecour, America is represented by specimens of the work of Edward and Thomas Moran, D. Ridgeway Knight and several other artists. One of the paintings by Cores was recently appraised at \$35,000.

Mr. Hewitt also owned a collection of Japanese and Chinese carved ivories, said to be the most complete of its kind in America. Most of his art treasures, including carved jades. Satsuma porcelaina, bronzes, enamels, tapestries, large still rugs, etc., were collected for him abroad by experts.
